

## D6 PARTICIPATES IN CRASH RESPONDER SAFETY WEEK

The District Six Traffic Incident Management (TIM) Team took part in the national Crash Responder Safety Week (CRSW) event that is held every year.

The national initiative was created to increase awareness for responder safety. The event is held the second week of November to highlight the incident

response community and the role they play in keeping the roadways safe. The initiative aims to humanize first responders

and put a face behind the uniforms. It reminds the public that safety workers have families too and urges them to use safe driving practices so that everyone has the opportunity to get home safely. To support this

*The initiative aims to humanize first responders and put a face behind the uniforms.*

goal, District Six created personalized video testimonials from members of the Road Ranger and Incident Response Vehicle fleet who talked about their roles both on the field and at home. The video testimonials played a key role in humanizing first responders in the public arena and were integrated as part of the public outreach campaign to

support the event. The campaign consisted of seven-day social media postings, public service announcements, program website updates, brochure distributions, and statewide news articles.

The District Six TIM Team is committed to supporting the initiatives that keep our roadways safe. From creating safety campaigns for CRSW to hosting training courses and improving roadway operations, the team works with national and

local partners to provide a multi-pronged approach to roadway safety throughout the year. For more information about CRSW, please visit <https://transportationops.org/TIM/CRSW>

### WHAT'S NEW?

- Infrastructure to Vehicle Pilot Project for Incident Management Reaches One Year of Operations

### UPCOMING

- District Six to Host 95 Corridor Team TIM Meeting – February 2022
- District Six to Co-Host Bi-Annual Broward/Miami-Dade County TIM Meeting – April 2022

## FHWA HOSTS TRAIN-THE-TRAINER SESSIONS IN SUPPORT OF NATIONAL CRSW

The District Six Traffic Incident Management (TIM) Team worked with the Federal Highway Administration (FHWA) to offer its Train-the-Trainer (TtT) course to the local incident response community in southeast Florida.

FHWA provided the course as an additional measure to support the national Crash Responder Safety Week hosted each year. The eight-hour course focuses on educating established TIM trainers on

the latest safety protocols and procedures. It equips trainers with the necessary knowledge to educate their fellow TIM team members in their local state or region. It is strategically developed by responders for responders, so the information is disseminated and received in a way everyone can understand.

The virtual course was offered to all states across four time zones. It served as an additional effort to promote responder safety as part of the national initiative.

## DYNAMIC MESSAGE SIGN POSTS

## RISC STATS

District Six implemented the Rapid Incident Scene Clearance (RISC) Program in 2009 to reduce the impact of large-scale traffic events along our roadways. The program covers: Interstates 75, 95, 195, 395, State Road 826, Krome Avenue, Okeechobee Road, the MacArthur Causeway, and US-1 in Monroe County.
