

New Incident Management Videos Available on SunGuide.info

The District Six Transportation Systems Management and Operations (TSM&O) Office is happy to announce the release of three new public education videos created for its Incident Management Program.

The videos are approximately 30-seconds each and were developed to raise awareness about the incident management services provided by the District.

The videos inform drivers about who the incident responders are, the type of assistance they provide and how to safely request for help. Each video ends with a message about the “Move Over” Law to remind drivers what to do if they encounter an active traffic scene.

To view these videos and learn more about our incident management program visit SunGuide.info

The main goal is to help drivers identify the multi-agency field personnel who provide these critical services and emphasize the importance of following traffic laws to promote roadway safety.

The videos were produced in short form to increase viewer consumption and encourage sharing. They were used during FDOT’s joint annual Drive Safe/Move Over Law Kick-Off event with Florida Highway Patrol this January.

They can be viewed in the gallery section of our newly re-designed website, SunGuide.info. We encourage you to check out the videos and peruse the new site today!

Please visit SunGuide.info/gallery to view these videos.

WHAT’S NEW?

- FDOT D6 launches re-designed SunGuide.info website
- FDOT D6 and the Florida Highway Patrol kicked off the Move Over/ Drive Safe public awareness campaigns

UPCOMING EVENTS

- District Six to Participate in January 2019 Smoke & Fog Task Force Meeting

D6 PARTICIPATED IN NATIONAL TRAFFIC INCIDENT RESPONDERS WEEK

District Six participated in the second annual National Traffic Incident Responders Week last November.

The District completed various outreach activities to educate the public about the important role incident managers play on our roadways. They kicked off a social media campaign and posted a series of public service announcements on the district's website and the dynamic message signs.

Staff coordinated these activities with its regional partners and Central Office to ensure a successful event. National Traffic Incident Responders Week brings awareness to the emergency responders that serve the public every day.

For more information regarding National Traffic Incident Responders Week, please visit [The TIM Network website](http://www.timnetwork.com).
