

FDOT Expands Traffic Incident Management 2020 Meeting Schedule

The Miami-Dade and Monroe County District Traffic Incident Management (TIM) Teams announced they will be adding more corridor-specific meetings to the general schedule beginning in 2020.

The new meetings are a result of the operational growth the region has experienced in recent years. From its expansion in arterial management to the launch of Palmetto Express, the District is actively managing more roadway miles than ever before.

The TIM team has added three new meetings to discuss the specific needs of each corridor with their corresponding partners and stakeholders. The TIM Teams have worked with partner agencies to develop the incident

These meetings will provide the time and platform for the partners to discuss corridor needs face-to-face.

response plans to meet the unique needs of these new projects or coverage areas.

The new meetings will cover the Interstate 95, State Road 826/Palmetto Expressway corridors and Monroe County and will supplement the annual meetings that are more general in nature.

These new meetings will provide the forum for the partners to discuss corridor needs face-to-face. The agendas and topic discussions will be tailored to each group to promote more effective discussions. The goal is to create a team environment

where partners can identify areas of improvement and solutions.

These meetings will work to enhance the District's incident management efforts in Miami-Dade and Monroe Counties. For more information, please visit www.sunguide.info.

FDOT DISTRICT SIX UNVEILS NEW ROAD RANGER INFORMATIONAL BROCHURE

The District Six TIM Team recently published a new brochure for FDOT's Road Ranger Program to increase awareness for the Road Ranger Service Patrols.

The goal was to provide drivers with an easy-to-use instructional guide on how to identify Road Rangers and how to safely request their help on the road. The brochure's inside cover outlines key Road Ranger characteristics and lists the services they provide. The outside cover provides information about

the Move Over Law and features a comment section that allows drivers to electronically submit Road Ranger feedback. The intent was to consolidate all program materials and key messages into one pamphlet for driver use.

The brochure was released during National Incident Responders Awareness Week. They were distributed to thousands of drivers at various public events. To see the brochure, please click [here](#).
