

TRAVELER INFORMATION

511 TRAVELER INFO

The 511 Traveler Information System provides users with real-time traffic alerts 24 hours per day, 7 days per week. Users can access the service through the website to learn more about traffic conditions and avoid delays. Users can sign up for traffic alerts, follow on social media, and download the mobile application. Please visit FL511.com.

SOCIAL MEDIA

FDOT uses social media as an additional publication tool in its traveler information toolbox. The agency uses several platforms to post planned transportation events and real-time traffic conditions to help drivers make informed decisions about their trip planning choices. These platforms include Instagram, Facebook, YouTube, and X.

DMS

Dynamic Message Signs (DMS) are electronic signs located along highway and arterial roadways to inform drivers of real-time traffic conditions that may impact traffic. Traffic operators at the SunGuide Transportation Management Center update the signs with traffic alerts and safety campaigns to help drivers avoid delays and promote awareness.
